PROFESSIONAL SUMMARY

Information Science student with a strong foundation in web development and full-stack technologies. Proficient in HTML, CSS, JavaScript, and modern frameworks, with hands-on experience building responsive and user-friendly applications. Familiar with backend development, databases, and version control. Strong problem-solving skills with a focus on developing scalable solutions and continuously learning new technologies.

EDUCATION

Bapuji Institute of Engineering and Technology B.E in Information Science and Engineering	2024 –2027
Gnana Vikas Polytechnic Diploma in Computer Science – 8.9 CGPA	2021 - 2024

SKILLS

- Languages: Java, JavaScript, Python (Basic)
- Frontend: HTML, CSS, React.js
- Backend: Node.js, Express.js
- Database: MongoDB, MySQL
- Tools: Git, VS Code
- Core Concepts: Data Structures & Algorithms (Basic), REST APIs
- Soft Skills: Problem-Solving, Team Collaboration, Communication, Adaptability

EXPERIENCE

- Full Stack Development Intern**
CodeC Technologies
 - Developed full-stack web applications using MERN stack with seamless frontend and backend integration
 - Built and tested RESTful APIs using Node.js and Express.js
 - Implemented secure user authentication and authorization using JWT
 - Managed and optimized database operations using MongoDB
 - Collaborated on real-world projects, contributing to application performance and scalability
- Web Development Intern**
SynctechHub
 - Developed responsive web interfaces using HTML, CSS, and JavaScript
 - Integrated backend APIs and handled data flow between frontend and server
 - Improved user experience through optimized UI components
 - Assisted in debugging and enhancing application functionality

PROJECTS

- Real-Time Chat Application (MERN + Socket.io)**
 - Developed a full-stack real-time chat application enabling instant messaging and group communication
 - Implemented WebSocket using Socket.io for real-time updates
 - Built RESTful APIs using Node.js and Express.js and managed data using MongoDB
 - Designed user authentication and session handling for secure communication
- Contact Manager (User Management System - MERN Stack)**
 - Developed a full-stack contact management system with secure user authentication
 - Implemented CRUD operations and protected routes using JWT authentication
 - Designed REST APIs for efficient data handling and user-specific access control

3. Resume Analyzer | Python, Flask, NLP

- Developed a web-based Resume Analyzer **using Python and Flask.**
- **Implemented TF-IDF vectorization and cosine similarity for resume-job matching.**
- **Extracted text from PDF resumes and analyzed matching and missing skills.**
- Designed an interactive UI to display match score, skill analysis, and suggestions.

4. AI-Based Kids Story Generator (SaaS - Ongoing)

- Developing a SaaS platform to generate personalized kids’ stories using AI APIs
- **Designing an interactive and user-friendly interface for storytelling**
- **Working on backend integration and dynamic content generation**

LANGUAGES

- **English** (Professional Proficiency)
- **Hindi** (Fluent)
